---

Summary

Innovative Full Stack Developer with 2+ years of experience building scalable web apps using MERN, Next.js, and MySQL. Skilled in integrating Generative AI solutions like OpenAI API, RAG, and prompt engineering to build intelligent, data-driven features. Proficient in AWS (EC2, Lambda), Docker, CI/CD, and Agile Scrum, with additional experience in iOS (Swift, UIKit). Passionate about crafting high-performance, accessible, and AI-powered digital experiences.

Technical Skills

Frontend: HTML, CSS • Tailwind • Bootstrap • Shadcn UI • React.js • Next.js • JavaScript • TypeScript

Backend & APIs: Node.js • Express.js • RESTful APIs • Gen AI • AI-driven APIs

Databases & ORM: MongoDB • MySQL • Prisma • Sequelize

DevOps & Cloud: AWS (EC2, Lambda) • Docker • CI/CD • Cloudflare DNS

Mobile Development: Swift • UIKit

Tools & Collaboration: GitHub • Figma • Agile/Scrum • Problem Solving • Leadership • Time Management

---

Experience

Meesap Technologies   **Lucknow, India**
Full Stack Developer   **01/2024 - Present**

- Led cross-functional feature design and deployment, achieving 99% client satisfaction.
- Mentored junior developers, introducing pair programming techniques to increase team efficiency by 30%.
- Modernized 4 travel portals with React.js, improving page load by 45% and achieving 99.9% uptime on AWS.
- Architected backend APIs with Express.js, enhancing interoperability and reducing response times by 25%.
- Streamlined project delivery in Agile sprints, with 100% adherence to deadlines.

Meesap Technologies   **Lucknow, India**
Internship   **07/2023 - 01/2024**

- Designed interactive front-end interfaces with React.js, Tailwind, and Bootstrap, increasing engagement by 30%.
- Developed RESTful APIs in Node.js/Express.js, improving system efficiency by 25%.
- Managed databases optimizing performance, resulting in 15% faster queries in MongoDB and MySQL.
- Built and maintained iOS applications using Swift and implementing UIKit, integrating RESTful APIs

---

Education

Bachelor of Computer Applications (BCA) – First Division   **New Delhi, India**
(IGNOU)   **01/2020 - 12/2023**

Projects

IYT Along with Its Four Sub-Projects
Migration of 4 travel-related web portals to a modern tech stack

- Migrated four travel portals from PHP/Yii to React/Next.js, unifying UI/UX and improving load speed by 45%.
- Deployed apps on AWS EC2 with Cloudflare DNS, maintaining 99% uptime.
- Optimized front-end performance and responsiveness across devices, enhancing user satisfaction.

CLC-UK
Improving the online presence and usability of the CLC UK website

- Refined front-end design and layout with custom themes and plugins, improving development speed by 30%.
- Enhanced mobile responsiveness and cross-browser compatibility, reducing bounce rate by 15%.

LuminAI
An AI-driven Career Coach using Next.js, integrating GenAI and RAG for real-time career insights.

- Architected AI-powered Resume/Cover Letter generator and Interview Assistant with real-time job trends using OpenAI
- Configured secure full-stack system with Clerk Auth, PostgreSQL (Prisma), and automated updates via Inngest Cron Jobs.
- Orchestrated a responsive, intuitive, and visually engaging UI with React.js, Tailwind CSS, and Shadcn UI.
