MOHD SHUMAIL

Full Stack Developer

+91-8090465032 • shumail582k@gmail.com • www.linkedin.com/in/shumayl-dev/ • Lucknow, India

Summary

Innovative and results-driven **Full Stack Developer with 2+ years of experience** building scalable, high-performance applications. My technical expertise encompasses the MERN stack along with proficiency in MySQL. Proficient in Agile methodologies, Git, and full deployment workflows including AWS EC2 hosting, Docker and CI/CD pipelines & gained cross-platform experience during an internship in iOS development using Swift and UIKit. Currently seeking a FullStack Developer role to apply deep JavaScript knowledge and full-stack skills toward enhancing web accessibility and performance.

Experience

Meesap Technologies
Full Stack Developer

Lucknow, India
01/2024 - Present

A technology company specializing in innovative development solutions

- Managed feature design collaborations, ensuring 99% client satisfaction.
- Mentored junior developers, introducing pair programming techniques to increase team efficiency by 30%.
- Deployed backend APIs using Express.js, improving interoperability and increasing data processing speed by 25%.
- Rebuilt and modernized 3 travel portals with Next.js, improving load speed by 45% and achieving 99.9% uptime on AWS.
- Improved project delivery speed by participating in agile sprints, ensuring 100% on-time delivery of software releases.

Meesap Technologies
Internship

Lucknow, India
07/2023 - 01/2024

An internship focused on developing iOS applications

- Gained hands-on experience in MERN Stack (MongoDB, Express.js, React.js, Node.js) through intensive training.
- Designed RESTful APIs increasing system efficiency by 25% through Express.js and Node.js
- Developed user interfaces improving user engagement up to 30% with React.js and Bootstrap/Tailwind CSS.
- Managed databases optimizing performance resulting in 15% faster queries in MongoDB and MySQL.
- Developed and maintained iOS applications using Swift and implementing UIKit and integrating RESTful APIs to enhance functionality and performance.
- Participated in the testing and debugging process, resulting in a 20% reduction in app crash rates and improved user experience.

Projects

IYT Along with Its Sub-Projects (www.its-your-trip.com)

Migration of travel-related web portals to a modern tech stack

- Transformed four travel portals by migrating from PHP/Yii to React/Next.js, optimizing speed and delivering a 40% improvement in load performance.
- Improved load speed by **45%** and unified UI/UX across all sites, enhancing user satisfaction.
- Deployed apps via AWS EC2 and managed DNS/domains through Cloudflare achieving **99.9%** uptime across all deployments.

CLC UK (clc-uk.org)

Improving the online presence and usability of the CLC UK website

- Refined front-end design and layout with custom themes and plugins, improving development speed by 30%.
- Improved mobile responsiveness and cross-browser compatibility, reducing bounce rate by 15%.

TECHNICAL SKILLS

Frontend: React.js · Next.js · HTML · CSS · Tailwind · Bootstrap · Responsive Web Design · JavaScript(ES6+) · jQuery

Backend: Node.js · Express.js · TypeScript · EJS · Authentication & Authorization (JWT) · RESTful APIs · Postman · PHP and Wordpress (Beginner level)

Databases: MongoDB · MySQL

DevOps & Cloud: AWS EC2 · Docker · CI/CD · Cloudflare · DNS

Version Control: Git · GitHub · Bitbucket

Mobile: iOS (Swift, UIKit)

Core Competencies: Problem-Solving · Communication · Collaboration · Adaptability · Leadership · Time Management

Education

Bachelor of Computer Applications (BCA) – First Division
(IGNOU)

New Delhi, India
01/2020 - 12/2023
